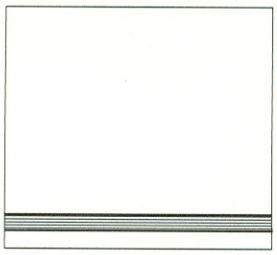
Hem Styles

Standard roller shades are supplied with a straight hem pocket at the bottom of the shade and wood slat inserts (most fabrics) or metal slat inserts (solar shades). The following decorative hems are available as upgrade options:

Straight Hems With Decorative Braid



Style #1

Straight hems with decorative braid have decorative trim placed above the hem pocket. Choose from the distinctive collection of natural braids below; otherwise, gimp will be supplied in a color that matches your fabric. This hem style is not available with E Screen and M Screen fabrics.

Jute Braid-Twine
Matching pull available

Jute Braid-Leaf
Matching pull available

Jute Braid-Bark
Matching pull available

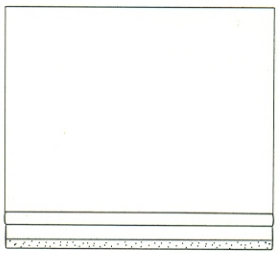
Beaded Jute

Box Braid

Embossed Leather Matte

Embossed Leather Gloss

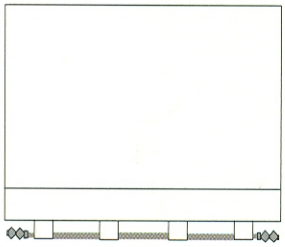
Straight Hems With Trim



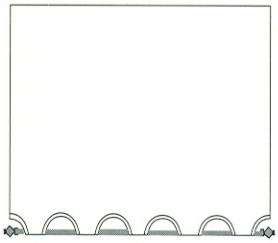
Style #16

Straight hems with trim have a short skirt beneath the hem pocket to allow decorative trims and fringes to be applied to the bottom of the shade. Surrey, tassel and twisted loop fringes are applied on the front of the shade with bias binding on the back. Gimp and fancy gimp are not available with this hem style. Also, straight hems are not available with E Screen and M Screen fabrics.

Tabbed Hems

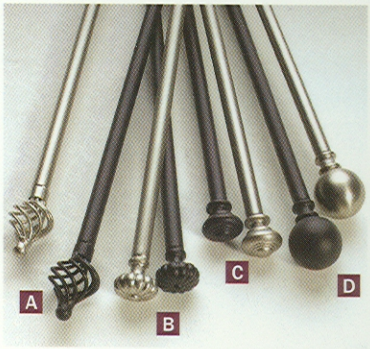


Style #10



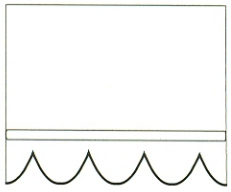
Style #13

Tabbed hems are edged with bias binding on the front and back. Gimp is available instead of bias as a no-charge option. Tabbed hems are supplied with your choice of accent hardware shown at right. This hem style is only available with the continuous loop clutch system and is not available with E Screen and M Screen fabrics.



A) Scroll Finial B) Blossom Finial
C) Knob Finial D) Ball Finial

Scalloped Hems



Style #2

Scalloped hems are edged front and back with gimp. Bias binding is available instead of gimp as a no-charge option. Gimp and bias are color-coordinated to match your fabric, or you may choose a beaded fringe or fancy trim from the list on the following page. Surrey, tassel and twisted loop fringes are applied on the front of the shade with bias binding on the back. Fancy gimp is applied to the front and back of the shade. Beaded fringes are applied to the back of the shade with bias binding on the front. This hem style is not available with E Screen and M Screen fabrics.
